

Using Library eBooks on a Kindle Fire

An eBook can be loaded to your Kindle Fire directly through the browser on the Fire. You do not need USB cables or a separate computer unless you would like to download in that way.

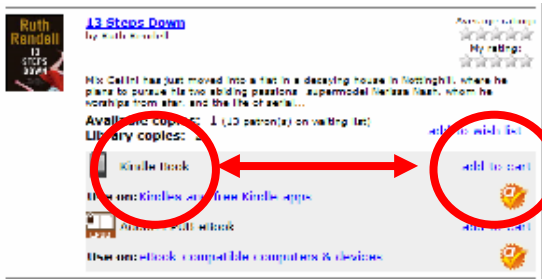

1. Open the browser on your Kindle Fire and go to the Digital Media Catalog website: <http://digital.minlib.net>.
2. Tap on the “**Login**” link at the top right corner of the page.
3. Type your library card number with no spaces, then your PIN. If you do not know your PIN, please call the reference desk at (781) 275-9440.
4. Successfully entering your card number and PIN will bring you to the **My Digital Media Account** page.
- 5a. If you want to **browse the collection**, select “**Browse**.” You can browse by genre or by format. For a complete list of eBooks, select “**Browse all Kindle Titles**.” You will then be directed to a list of available titles and titles that are unavailable.

Available titles will have an “**add to cart**” button. Titles that are currently checked out will have a “**place a request**” button. Clicking on the “place a request” link will allow you to place yourself on the waiting list for that title.

or

5b. To **find a specific title**, tap on the **“Search”** and then select **“Advanced Search.”** Choose Kindle Book as your format and fill in the other fields to narrow your search. You can choose to see only books that are available by selecting the box **“only show titles with copies available.”**

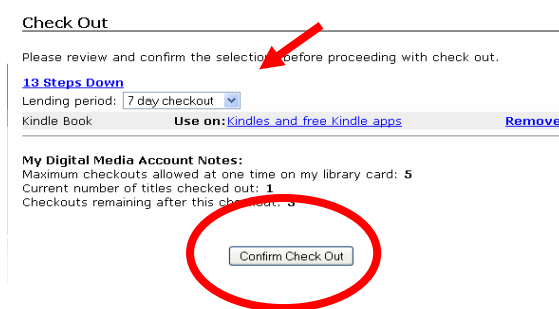

6. Scroll through the results. Notice that each record includes the notation **“Kindle Book.”** Once you have selected a book, click on **“add to cart.”** Make sure to click on the **“add to cart”** that is paired with **“Kindle Book.”**

NOTE: Any Kindle books that are paired with **“place a request”** instead of **“add to cart”** are unavailable. Clicking on the **“place a request”** link will allow you to place yourself on the waiting list for that title.

7. Click on **“Proceed to Checkout.”**

8. Change your lending period if you want to by opening the drop- down menu, then click **“Confirm Checkout.”**

9. Click on **“Get for Kindle.”**

10. You will be redirected to the Amazon.com website. Click on **“Get library book.”**

11. If you have an Amazon account, enter your email address and password. If you do not have an Amazon account, enter your email address and check on the button next to “No, I am a new customer.” And then tap “**Sign in using our secure server.**” You may skip this step if you are already logged into your Amazon account.

Logging into your Amazon account should automatically trigger the download.

12. Tap on “**Sync**” which appears near the top of your Kindle Fire screen.

13. Tap on “**Books**” to access your eBook.

Having trouble downloading?

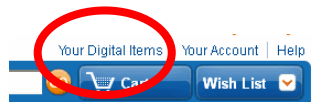

If you are unable to download using your Kindle Fire, you can still transfer the eBook to your Kindle with a computer and a USB cord.

Login to your Amazon account on your home computer and download the book to the computer. Next, with a USB cord connected to the computer and the Kindle Fire, transfer the file to the Kindle.

TO RETURN AN EBOOK:

1. Go to the Amazon website: <http://www.amazon.com>.
2. Click on “**Sign in.**”
3. Enter your email address and password. Click “Sign in using our secure server.”

4. Click on “**Your Digital Items.**”

5. Click on “**Manage Your Kindle.**”

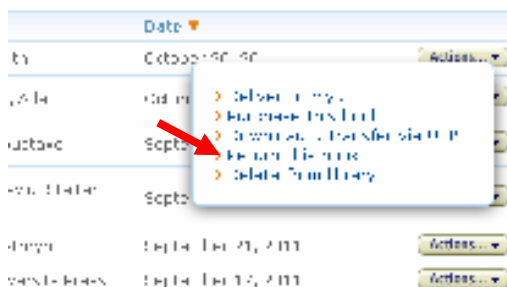

Kindle

Amazon's revolutionary wireless reading device. Read your Kindle books on your Kindle, PC, Mac, or mobile device. [Shop Kindle Store](#)

- › [Your Kindle Orders](#)
- › [Manage Your Kindle](#)

6. eBooks borrowed from your public library will have the words “public library” following the title. Click the “**Actions**” drop-down menu next to the eBook you want to return.

7. To return the eBook early to your library, select “**Return this book.**” You do not have to return eBooks; once their due date has passed, you will not be able to read them.

8. Click on “**Yes.**” You will see the words “**Successfully returned**” appear briefly above the returned title.

9. Even though the eBook has been returned, it will still appear as a part of your Kindle library account unless you delete it. To delete it, click the “**Actions**” drop-down menu again and select “**Delete from library.**”

11. The words “**Successfully deleted**” will appear briefly above the title and when the page reloads, the deleted title will be removed from your Kindle account.

IMPORTANT: This does not delete the item from your actual Kindle, just your online account. The words **[Loan Ended]** will now appear in front of your returned and/or deleted library eBook on your Kindle.

To delete from your Kindle, follow the instructions in your Kindle User’s Guide for deleting an eBook.

WHAT ABOUT AUDIOBOOKS?

The Kindle Fire allows you to install many different apps. To listen to free library audiobooks, install the **OverDrive Media Console (OMC)** app on your Kindle Fire.

The OMC will also allow you to check out EPUB eBook titles (not all of our eBooks are available in Kindle format) and download MP3 audiobooks to the Fire -- all from the Fire's mobile browser.

Audiobooks cannot be returned early and can be deleted from your device following the instructions in your User's Guide.
